

THE AUDIT DEPARTMENT – TAKING CARE OF ITSELF

Since 1992 the officers of the Audit Department have sought to actively make a difference in their working environment, with the establishment of the Audit Staff Association. The Association evolved from a staff fund which was established for the sole purpose of purchasing cards, wreaths, and gifts for occasions such as weddings, funerals and retirements. The Associations mandate though, goes beyond the raising of funds for social events or occasions. Its objectives also include:

- The provision of social, educational and professional upliftment of the members of the Association
- Making recommendations to Management for the general improvement of the working environment.
